DIAMOND COMBI

- Combines 12 groove and XD features
- Result is an award winning disc
- Excellent Pedal Feel
- Excellent heat dissipation

DIAMOND XD

- Extra cooling
- Expels heat and gases
- Cross-drilled Disc face.

DIAMOND 12 GROOVE

- Instant brake response
- Excellent heat dissipation
- De-glazes brake pad for greater response
- 12 curved radial grooves on disc

BRAIDED BRAKE HOSE KITS

An excellent range of stainless steel braided brake hose kits to suit many vauxhalls
Call for details on your car from £29

POWER CLUTCHES

The Diamond Power Clutch is for use in fast road cars. The updated design gives a 20% increase in damping pressure over original or standard replacement items.

- Instant response & Improved control
- 12 month, 12,000 mile manufacturers warranty

Note: Whilst acceptable for use on mildly modified cars, these clutches are not designed for use with heavily modified engines, race and track cars. Some parts are remanufactured but all kits are rigorously checked at several stages of production to ensure quality and performance throughout the clutch kit life.

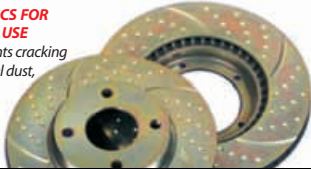

EBC BRAKES

All EBC pads come with edge chamfers which reduce noise and don't effect lifespan of pads, also features revolutionary new Brake-in 3rd coating. Many pads also include noise reduction shims on the rear of back plate.

EBC TURBO GROOVE DISCS FOR ROAD USE & TRACK DAY USE

- Blind drilled holes prevents cracking
- Wide aperture slots expel dust, dirt, water & gases
- Gold zinc anodised.

ZEROSIXTY performance products are designed and manufactured specifically for the Fast Road market.

The performance brake discs feature a unique dimpled and grooved pattern - both for better image and for better performance. The dimples eliminate the thermal cracking that can be found in drilled discs.

Benefits also include brake fade reduction and constant pad deglazing.
